## CAREER OBJECTIVE

Passioned MERN Stack Developer seeking an entry level role to build real world applications using MERN Stack. Eager to learn fast, contribute to team projects, and grow into a full stack engineer.

## TECHNICAL SKILLS

- **Frontend :** JavaScript, React.js, Next.js, HTML, CSS, Tailwind CSS,
- **Backend :** Node.js, Express.js, MongoDB, Mongoose, Socket.io, REST APIs, Firebase, JWT
- **Tools & Others :** Git and GitHub, Postman, Vercel, Netlify, Canva
- **Interpersonal Skills :** Hard working, Collaboration, Quick Learner, Problem Solving, Critical Thinking

## PROJECTS

### 1. AgriSmart - AI powered smart farming system (Team Project)

[Client](#) [Server](#) [Live](#)

A smart agriculture web application designed to help farmers get AI based crop advice, real time market prices, and manage their farm activities.

**Technology :** Next.js, Tailwind CSS, MongoDB, Node.js, Express.js, Socket.io, Next Auth, Mongoose, Jwt

#### Features :

- **Farm Management:** Farmers can add, update, and delete farms, and create tasks to manage their daily farming activities efficiently.
- **AI Crop Assistance:** Farmers receive AI based crop advice, disease detection from images, and personalized suggestions for better productivity.
- **Knowledge Hub:** Gives farmers access to blogs, videos, and learning content in one place.
- **Weather Intelligence:** Real time weather updates with AI driven alerts, warnings, and actionable guidance for safety and crop protection.

### 1. SoulMate – Matrimonial Web Platform

[Client](#) [Server](#) [Live](#)

A modern matrimony platform built with React and Vite, offering a smooth user experience with real time features, secure payments, and a complete user/admin dashboard.

**Technology :** React, Tailwind CSS, MongoDB, Node.js, Express.js, JWT Auth, Firebase, Stripe, Socket.io

#### Features :

- Designed a smooth and intuitive matrimony experience where users can create biodatas, explore profiles, and interact effortlessly.
- Developed biodata creation and advanced search/filtering for efficient matchmaking.
- Integrated Stripe payments to enable premium membership and real time chat with Socket.io.

### 2. Service Review Website (Full Stack)

[Client](#) [Server](#) [Live](#)

A service review platform enabling users to submit, view, and filter reviews efficiently. Implemented responsive UI, ratings system, and data management for seamless user experience.

**Technology :** React.js, HTML, Tailwind CSS, MongoDB, Node.js, Express.js, JWTAuth, Firebase

#### Features :

- Explore various services or add your own with detailed reviews and ratings.
- Implemented review system with ratings and feedback to help users make informed choices.
- Detailed Service View: Provided comprehensive service details for informed user decisions.

## EDUCATION

### Bachelor of Social Science (BSS) in Political Science

September 2025 - Present

National University, Bangladesh | Nabiganj Govt. College

## LANGUAGES

- Bengali (native)
- English(Intermediate)
